Bang Printing is obligated to the management and preservation of our natural resources, and providing environmentally conscientious options to our customers. We realize that our goal is to be socially and environmentally responsible, and we are committed to our course.

Bang Printing acknowledges the environmental impact caused by our business operations, products and services. We attempt to promote global preservation and embrace the concept of pollution prevention within our organization. All Bang Printing employees are aware of global environmental protection. We continue to maintain an internally controlled management system and consult with our suppliers to minimize or eliminate damage to the environment.

We are members of the Chain of Custody Certifications by the Forest Stewardship Council® (FSC®), Sustainable Forestry Initiative® (SFI®) and also of the Green Press Initiative. At Bang Printing, we strive to do our part to ensure preservation of our natural resources for generations to come.
